GREAT FORWARD MOVEMENT TAKING PLACE

A BRIGHT FUTURE FOR OUR TOWN

Rules and Regulations

Governing Candidates for the
Fine Piano Prizes Offered
by "The News" and N.
Murphy & Co.

1. The Five Prizes offered jointly
by the News and the N. Murphy Com-
pany will be given to the five contest-
ants who have received the greatest
number of votes by 10 p.m., Dec. 30,
at which time the contest shall be
declared officially closed and all votes
polled thereafter.

2. Ballot box will be opened every
Monday night at 8 p.m. and the votes
therein counted and the ballot box
resealed by a committee of two se-
lected for the purpose by the Con-
test Manager, his selection to be sub-
ject to public approval. The result
of each week's count shall be pub-
lished the following Wednesday in the
News, and the candidates' names and
their standing to appear.

3. Nomination list will close Oct.
30 at 6 p.m. After this date candi-
dates will not be entered except by a
special agreement with the Contest
Manager.

4. Any candidate living within a
radius of 25 miles of Red Deer will
be accepted, providing they are nomi-
nated in regular form on one of the
Coupon Ballots appearing in any
of the issues of the News. The Con-
test Manager reserves the right to
reject the name of any undesirable
candidate and to limit the number
of entries.

5. Voting Coupons may be cast by
anyone, providing that they are ob-
tained from any of the following
sources: Coupons appearing in regu-
lar issues of the News, or in letter,
card issues under the name of the
News or N. Murphy & Company, or
coupons given out by the News or
N. Murphy & Company for trade at
their store no matter what from.
All others shall be declared void and
thrown out by the judges.

6. No employee of either the News
or N. Murphy & Company will be
permitted to enter the contest.

7. All votes must be deposited in
the Ballot Box located at N. Murphy
& Co.'s store and in the presence of
the Contest Manager or some one
appointed by him. In casting a num-
ber of votes at the same time they
must be neatly tied together or placed
in a small envelope. Votes may
be cast personally or by mail.

Address all correspondence regard-
ing the Contest to:
The Contest Manager,
care N. Murphy & Co.,
Red Deer, Alta.

Football

"Coming events cast their shadows
before." Edmonton High School is
challenging again for the Rutherford
Cup, and the Red Deer United hope
to meet the Calgary Callies in their
home city on Thanksgiving. In pre-
paration for these events a practise
game was played last Saturday on
the school grounds. The United had
a strong aggregation, and the High
School was short two of its best
players, but a good game resulted in
a win for the latter by a score of
2-1. It is hoped that a similar game
may be arranged next Saturday, as
both teams can stand all the practice
they can get.

Beautifying the Depot Grounds

Mr. Iwerson, Superintendent of
Parks, Calgary, paid Red Deer a
visit a short time ago at the sug-
gestion of the C.P.R., who are very
anxious to keep up with the town
in beautifying our streets and parks.
They desired Mr. Iwerson to lay out
a plan to beautify the plot of ground
in front of the station and Ross
Avenue, and also the property to the
north, used as an implement shed. A
nice driveway with flower beds and
trees, to correspond with the town
park, will be laid out and arranged,
and a fountain will be erected in the
centre, adding much to the charm of
the west end of Ross Avenue. The
implements will be removed from
north of the station and the ground
planted to flower beds and shrubbery.
This will add greatly to the beauty
and attractiveness of the town, and
the C.P.R. are entirely in the thanks
of citizens for their part in the
transaction.

FARRAR-TAYLOR.

Married—On Sept. 7th, at 730, 15th
Ave. West, Calgary, the residence of
W. P. Taylor, brother of the bride,
by the Rev. A. M. Shore, John
Farrar, of Penhold, Alta., to Jessie
Hale, daughter of Geo. T. Taylor, of
Fredericton, New Brunswick.

While people have been busy with
election matters, the railway com-
panies have been putting out every
effort to advance the work on their
respective lines.

The Alberta Central Railway con-
tractors are busy with the steel on
the line west of the C. & E., and it
is expected the line will be com-
pleted to the Red Deer river in about
two weeks, when the line will be used
to convey the heavy steel girders to
the bridge spanning the river. The
bridge is nearly half a mile long and
about a hundred feet in height, and
will be built of steel resting on con-
crete abutments. Some of the pieces
of steel take two cars to hold
them so that it would be utterly
impossible to convey the steel to the
bridge by horse power. It is expected
the steel bridge will be completed
in a little over two months and a
great forward movement is then ex-
pected, and it is hoped steel will be
laid as far as Rocky Mountain House
this fall. Callister Bros. Co. the well
known firm of contractors, have the
work well in hand.

The Canadian Northern Railway
Co. are also very busy, and leaving
no stone unturned to complete if
they possibly can their line to
Rocky Mountain House this fall.
They are busy track laying and have
reached Poplar Ridge on their west-
ward march. When a big gully is
bridged they will then have clear
sailing until they reach the Medicine
river. A big gang of men are at
work with the steel, which is being
laid as fast as possible. The Com-
pany will also grade their line to
and through Red Deer this fall, and
perhaps lay their line of steel. Work
will start on the grades through
town probably next week.

What all this means to Red Deer
may be easily imagined. It is no
pipe dream. The town must forge
ahead. A man who knows the Uni-
ted States like a book informed the
writer Red Deer had the most up-to-
date business men of any town in
the west of eight thousand popu-
lation, and that he was never in a
town this size in Canada or the Uni-
ted States where the business men
are so alert and so progressive as
they are in our bright little, tight little
town of Red Deer.

Skating Rink Badly Needed

It is to be hoped a strong effort
will be made this fall to build a
skating rink for the benefit and plea-
sure of the young people of the town.
There is no one institution so neces-
sary to invigorate and improve as a
rink, and the young men who at
present occupy their evenings in
smoky rooms and doubtful resorts
will only be too anxious to devote
their spare time to the rink, enjoy-
ing themselves in the pure bracing
air. It is devoutly hoped, therefore,
that a good sized rink will be built,
of which the town may feel justly
proud. There is not a town the size
of Red Deer without a rink in Alber-
ta, and many less pretentious towns
have large, well built rinks that are
the joy of the young people during
the winter months. Red Deer is be-
hind in this respect, and away be-
hind. It is time to wake up and
build the good work alone. Every
citizen, every ratepayer, every clean
sport and every God-fearing man
should put his hand to the wheel
and help the good work along.

MARRIED

McKEE-OLDFORD.

A very pretty wedding took place
in the Horn Hill Methodist Church
on Wednesday afternoon when Mr.
Robert McKee, of Verdon Valley,
near Manson, was united in Hymen's
happy bonds to Mildred Ethel, young-
est daughter of Captain John Oldford
of Penhold. The ceremony was per-
formed by Rev. T. A. Bowen of
Springdale, assisted by Rev. J.
Strode of Penhold. The bride looked
charming in white embroidered
net over white silk with conven-
tional veil and orange blossoms and
carried a beautiful bouquet of white
carnations. Miss Edna Etter, former
teacher at Horn Hill, was brides-
maid. She was tastefully attired in
white marquisette over cream silk.
The bride was given away by her
father, Mr. John Oldford, brother of
the bride, filled the office of best
man. The altar of the church was
very prettily decorated with potted
plants. Mrs. J. H. Brown played
the Lohengrin wedding march as the
bride's party entered and left the
church. After the ceremony a large
number of guests assembled at Capt.
Oldford's and partook of a very
generous and well served supper after which
the happy couple left by the evening
train south for Calgary showered by
the train and the best wishes of a large
circle of friends. A large collection
of valuable and useful presents show
the high esteem in which the bride
is held in the community.

Hundreds Die as Towns Are Swept by Flood

Homes Wrecked in Austin and
Costello, Pa., by Breaking
of Dam

Austin, Pa., Oct. 2.—The little city
of Austin, housing some 3,000 souls,
has almost been wiped out, and the
town of Costello partly wrecked by
the breaking of a dam above this
place yesterday. It is estimated that
three hundred persons have been
drowned and a total loss to prop-
erty amounting to some \$6,000,000.
Hundreds of homes have been wreck-
ed, and great suffering is being ex-
perienced by the survivors. Relief
trains are slow in arriving, but this
morning the first of these came in,
and all that can be done to relieve
the homeless is being carried out.

Five minutes after the dam burst,
the stage has been swept of its
scenery and setting along the foot-
hills were scores of telescoped houses
at either end of Main street. The
brick buildings acted as buffers as
the twenty-five foot wall of water
rushed downward with its mass of
debris almost higher than the wood,
steel and brick were piled, a strange
mixture of the contents of stores
and homes, of varied length timbers
and sticks. The wreck of the dam
had been as complete as it was sud-
den.

During the night searching parties
went about hunting lights, and some
big lamps, pine torches and im-
proved lanterns of every sort poked
their way into every pile of wreck-
age to ascertain who might be alive,
but scarcely a body was found.

With daylight the work of rescue
continues.

Turco-Italian War will be Short

London, Oct. 2.—From present ap-
pearance, the Turco-Italian war
promises to be the shortest and most
bloodless war in history.
Thus far its distinguishing charac-
ter has been the absence of fighting
and the money making which accom-
pany it. It may be ended before fight-
ing takes place. It is concluded that
no mediation will be accepted by
Italy until she has accomplished the
military occupation of the Tripoli
coast. After that negotiations will
be much easier and are not unlikely
to be successful if Turkey will accept
a money indemnity for allowing Italy
to establish herself in Tripoli as
Great Britain in Egypt.

The move from Italy from various
points continues to be of a negative
kind. Tripoli, it seems, has not been
bombaraded and is not likely to be if
the Turks do not oppose the land-
ing. The warlike operations are con-
fined to a blockade and the capture
on either side of a few small ves-
sels are now admitted by the
Turks that previous to European Tur-
key is not occupied. Italy's an-
nouncement that she has no intention
to carry the war into European
Turkey will do much to allay appre-
hension of Balkan complications.
Turkey's ministerial difficulties have
not been solved but generally the
situation looks more hopeful.

ARABS DEFENDING TRIPOLI.
Malta, Oct. 2.—Word just received
from Tripoli says that the Turks and
Arabs are entrenching behind the city.
Sixty thousand Arabs said to be
armed with mausers hold a strong
position fifty miles behind the town.
An advance guard is stationed twenty
miles from Tripoli. The Turkish
garrison has left the forts.

WHAT PARIS HEARD.
Paris, Oct. 2.—Advices reaching Paris
indicate that the Italian trans-
ports were due at Tripoli this evening
and that the landing probably
would begin tomorrow. What is
going on behind the screen appears
to be a blockade of the Tripoli coast
with a squadron at Tripoli
throwing a shell into one of the
Turkish forts for the sake of a de-
pressing moral effect upon the de-
fenders until their transports arrive.
INSURING BRITISH SHIPS.
London, Oct. 2.—A despatch from
Rome says that two divisions of the
Italian fleet have sailed, one for Sal-
oniki and the other for Smyrna. In-
surance against risk of capture at
sea was taken at Lloyd's today on
British ships carrying coal to Tripoli
and it is thought they might be
seized by the Italian fleet on the
ground that the coal was intended
for the Turkish navy. At Tripoli
Lloyd's said that the greatest con-
cern arose from the fact that the
ships were navigating in places with-
out the aid of the coast lights.

Local and General

Sheriff Mellor was indisposed for a day or two last week.

Corporal Platt, of Okotoks, was a visitor at Red Deer last week.

Rev. Robt. Pearson was down to Innisfail last week to attend a meeting.

Mr. and Mrs. R. C. Brumpton arrived home on Thursday from the east.

Miss Roberts, of Seaforth, Ont., is visiting her sister, Mrs. A. H. Russell.

Jim McConnell was a week end visitor to Calgary, combining business with pleasure, but mostly business.

I. Lyons and "Little Lok" took in the dance at Ponoka last Friday, returning on the Saturday early morning train.

At the band concert last Wednesday evening, through the kindness of one of the audience, about six dollars was collected and handed over to the secretary.

Don't forget the sale of work in connection with the Ladies' Aid of the Baptist church to-morrow afternoon. Ten cent tea and sale of home cooking in connection.

G. E. Rice, of Alix, passed through on Saturday on his way home from Toronto and Winnipeg, where he has succeeded in interesting a number of manufacturers in the advantages of Alix.

Have you a piano in your home? If not, call round a: this office with the amount of your arrears, or better still, induce your new neighbors to subscribe; we have something good to offer you in the voting concert. Read Murphy & Co's ad.

George Crammond left last week for Toronto after having spent a pleasant holiday with his sister-in-law, Mrs. J. H. Bennett. Mr. Crammond is connected with the Mail and Empire of Toronto, and, after visiting some of the best cities in the west, says that Red Deer beats them all.

Scarcely a week passed but what we read of someone being either killed or dangerously wounded by a stray bullet from the rifle of sportsmen or boys, and too often the bullet enters some place in town where it is least expected, and it is nearly always a mystery as to who fired the shot. It is time that something was done to prevent these accidents. Only last Thursday ex-Alderman John Donnan, of Strathcona, was seriously wounded in this manner while standing on his own doorstep, the bullet entering his back just below the shoulder and lodging in the liver. m

Hunting Wild Geese at Red Deer

A True Experience, Related By One of the Hunters.

We left town about half past three and, there being only the four of us in the car, we made good time and soon arrived at the happy hunting ground which the "Wily" geese frequent. It being too early yet to expect geese, we cruised around for a time in search of ducks and were rewarded for our efforts by bagging fourteen good ones. We then returned to the big pond and were pleased to see that a flock of geese had come during our absence. We bagged four of them, and the best fun of all was when the dog went out into the lake to get one which had only been winged. The goose first grabbed him by the ear and held on for a while, then let go to get hold of him on the ribs. There was a fierce fight for a while, but finally the dog managed to dive under the goose and turn him over and finished him by taking him by the neck and bringing him ashore. We were back in town by half past six with fourteen ducks and four geese, which weighed in at fifteen pounds apiece. The worst part of it was when Chris. White made us pay for his tame geese which we had shot. How the ducks were to know they were tame geese when they were so far from the ranch. However, we had a good feed and the shooting of them was good fun, but a little too expensive to indulge in very often.

\$1,000 To Be Given For Wheat

One thousand dollars in gold is offered by Sir Thos. Stansbury for the best two hundred pounds of hard red wheat at the American Land and Irrigation Congress, to be held at Madison Square Gardens, New York, in November. Alberta farmers will be interested in this magnificent offer. Men who have good wheat could send two hundred pounds by express prepaid, to J. H. Dennis, C. P. Irrigation Colonization Co., Calgary, Alta. The grain should be double sacked (the inside one with a cotton sack) and carefully tied. Inside the sack should be a card giving the name and address of the owner. This information should also be given on the label attached to the sack, and a letter should be sent to Mr. Dennis advising shipment, which should be made before Oct. 15. All exhibits will be forwarded from Calgary by the C. P. Railway Co., free of charge to exhibitors.

Persons who are doubtful whether yours is up to the point of this competition, may send about two quarts to the College of Agriculture for examination. They will be advised promptly whether or not they should ship an exhibit to Calgary.

To Change the Calendar

A radical change in the calendar is seriously proposed by British statesmen, and a bill has been introduced into the British parliament, which, if carried, will divide the year into 11 months of 28 days each—that is four weeks of seven days and one extra day to make up the year. This extra day will be neither a day of that month nor of the week, but simply and only Christmas day, and would be added to the days of Christmas week, which week would there be always contain eight days and two holidays. It is further proposed to make a fixed date for Easter, the 15th of April being the one chosen for that day. It will be seen by this plan any day of the week would always have the same numbering in one month as in another.

Among the advantages claimed by the advocates of this reform are the following:—All months would end on Saturday, and contain the same number of working days. Therefore monthly business balances would be made easy. All law, university and school terms are made annual. Comparative returns and statements for all corresponding periods would be fair and true. All periods of earning and payment would be alike.

Holidays now movable could be fixed in their happiest position. And, in fine, the calendar would be simple, fixed and permanent.

Murder at Sydney

Sydney, N.S., Sept. 26.—A fatal stabbing affray took place here yesterday afternoon when Stat Harnick, a young Hungarian, was stabbed by another Hungarian named Stephen Gionloig, who was under the influence of liquor at the time. The particulars indicate that the murder was committed without provocation. Harnick was on his way to his boarding house at the pier from work when Gionloig met him and a few words passed between them when the latter drew a heavy pocket knife and stabbed Harnick over the heart, the victim dying almost immediately. There were two friends of the men present, but it all occurred so quickly that they had no time to interfere. Both these witnesses are under arrest with the prisoner, Gionloig, whose examination takes place tomorrow. Officers at once were sent to the scene. Harnick was found lying on the road where he had fallen with the knife in his side. There was a deep wound in the breast from which blood was flowing. The prisoner was found in his boarding house. He acknowledged stabbing the man.

Morocco Dispute Amicably Settled

Paris, Sept. 27.—The German minister of Foreign Affairs, Herr Von Kiderling, yesterday, the French ambassador to Germany, M. Cambon, at the foreign office in Berlin at noon today and informed him that Germany had accepted the latest French proposal concerning Morocco. The Moroccan trouble arose from the encroachments of Germany at a time in search of the west coast of Morocco. Their action was resented by the powers and proposals were made on both sides which have been drawn out for some weeks, the whole of Europe being on several occasions on the verge of war. France, which is in possession of the neighboring territory of Algeria, was particularly interested and resented greatly the action of the Germans. Germany has, with the consent of the powers, received certain rights in Morocco, but on the understanding that France has absolute political liberty in Morocco, that all the powers have equality of economic rights in the country and that there should be a solid guarantee on the part of Germany to maintain these rights. In return Germany has been given by France a large tract of land in the neighborhood of the mouth of the Congo, so that they may have an open course to the territory in the west of Africa, to build a railway across the continent and establish other means of communication.

A Wonderful Discovery

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin wound or sore, such injury is insured against blood poisoning. Not one speck of microbe has been found that Zam-Buk does not kill!

Then again, As soon as Zam-Buk is applied to a sore or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again, As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is working up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures so permanently. Only the other day Mr. Marsh, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk company and told them that for over twenty-five years he had been a master of his trade. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. Today—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema. All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a stamp to the post office (to pay return postage). Address Zam-Buk Co., Toronto.

Estray Law

The Alberta law prescribes that the party who takes up an estray animal must immediately notify the brand reader nearest his place to come out and examine the animal and take a copy of brands, if any, on the animal. Then an advertisement must be inserted in the nearest local paper and also in the Alberta Gazette, and until the law is complied with the holder of the estray cannot collect any fee for his trouble or feed. Prompt action must be taken, the law being very strict in this matter. The brand readers are entitled to a fee of \$2.00 for each animal they examine and mileage to the extent of the per mile for the first ten miles. The cost for reading and the advertising is a charge against the estray animal and must be paid when the animal is claimed. The party belonging the animal is responsible for all charges until it is sold or redeemed by the owner. No charges for feed are allowed between the 15th day of April and the 15th day of November. From November 15th to April 15th a fee of 15 cents per day per head is allowed for horses and cattle, dating from the day on which notice is mailed to the owner of the estray animal or to the Alberta Gazette, but not exceeding the sum of \$9.00. South of the 20th township only 5c per day is allowed for feed and the total cost is limited to \$3.00.

Boy Killed at Lockhart

Harry Richardson, nine-year-old son of Mr. and Mrs. J. T. Richardson, of Lockhart P.O., west of La Crosse, was shot and killed on Sunday last. It appears that Mr. Richardson had been shooting on Saturday, and returned left his shotgun loaded in the wagon. On Sunday morning young Harry and a younger brother were playing with the weapon, and when the latter discharged the full charge striking the unfortunate, who died almost instantly.

FOR SALE. Team of horses and buggy. A snap. Apply at this office. Sept. 29, 1915.

C.N.R. Railway to Athabasca Landing to be Completed in November

That the Canadian Northern railway to Athabasca Landing will be completed early in November was the announcement made this morning at the local offices of the railway company. The company expects to run a regular passenger service this winter to the Landing and freight will be handled as soon as the road is in running shape. Up to the present all fur trade and barker with the Indians arrived in civilization over this trail and all goods and freight for the north has been laboriously transported over this portage. The territory served runs 2,000 miles north to the Arctic ocean and is as wide as the basin of the Mackenzie river. In the new era opened up by the Canadian Northern railway, freight will now be loaded onto the steamers at Athabasca Landing and distributed in this manner to all the different trading posts throughout this vast territory. Settlers will now have easier access to the Peace River country and their goods and chattels will be loaded on the steamers and carried to the west end of Lesser Slave lake, where they will be within 40 miles of the famous Peace river country and the last free land. PEACE RIVER BRANCH. Steel will also be laid on the Peace River branch leaving the main line at Onway, and it is expected that this line will be completed during the present season to the Pembina river.

Work was also commenced this week on the North Thompson section of the Kamloops line, giving employment to over 500 laborers, and work has been started on the construction of the Hudson Bay railway at Hudson Bay Junction, giving work to several hundred men.

Gaetz-Cornett Drug & Book Co. Have a Preparation that Will Grow Hair Abundantly.

This is an age of new discoveries. To grow hair after it has fallen out today is a reality.

SALVIA, a Great Hair Tonic and Dressing, will positively create a new growth of hair. If you want to have a beautiful head of hair, free from dandruff, use SALVIA once a day and watch the results. SALVIA is guaranteed to stop falling hair and restore the hair to its natural color. The greatest Hair Vigor known. SALVIA is compounded by expert chemists. Watch your hair if it is falling out. If you don't, you will sooner or later be bald. SALVIA prevents baldness by fastening the hair to the roots. Ladies will find SALVIA just the hair dressing they are looking for. It makes the hair soft and fluffy and is not sticky. A large bottle, 50c.

A Sure Test

A sure test of whether a man is worth his salt is to watch his doings on arriving home with a horse or team in bad weather. If, for example, he is soaked to the skin and after putting his horse in the stable just as he is, he goes and looks after his own needs first—changing his clothes and having a good meal, and then turning his attention to the stable—that individual is not his own good, whether the horse is his or not. But the man who, soaking wet and worn out as he is, first makes the beast, that has worked with him all day, thoroughly comfortable, rubbing him down vigorously, and seeing to it that he has a comfortable bed, a warm stable, and, after a short while if he is very tired, a good feed and a good drink, whether the horse is his or not—that's the man to be respected. —The Homestead.

Electric Restorer for Men

Phosphonol is its proper name; restores vitality, energy, and strength, and cures weakness, nervousness, and all ailments arising from lack of vitality. Phosphonol will be mailed to any address. The Scott's Drug Co., St. Catharines, Ont.

Cortley Pianos

ARE NOT MERELY FIRST-CLASS, THEY ARE SOMETHING BETTER.

Good pianos that are regarded as first-class and to-day are as fine as they ever were, are not only out-classed but appear at a disadvantage when compared with the Cortley Piano, because of its greater achievements in construction and tonality.

We ask you to examine a Cortley for yourself.

R. J. THOMPSON, LOCAL AGENT, RED DEER

Try the Money-Back Cure for Indigestion.

Nine times in ten stomach derangements are responsible for sorrow, complexion, dull eyes and thin body. It is the stomach that supplies nourishing blood to the muscles, the nerves, and skin. If the stomach is healthy, plenty of nutritious matter will be absorbed by the blood. If it is not healthy, the food will ferment, and, undigested, will pass along through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes. If you suffer from nervousness, sick headache, belching of gas, sour taste in the stomach, heaviness after eating, or any other miserable stomach disturbance, you need M-i-n-a, and the sooner you get it the quicker you will be healthier and happier. It will relieve any distressed stomach condition almost immediately. It will cure if used according to directions. Gaetz-Cornett Drug & Book Co. sell it for 50 cents a large box, and they think enough of it to guarantee it to cure indigestion.

HYOMEL

(Pronounced HIGH-O-ME) CURES CATARRH, ASTHMA, BRONCHITIS, CROUP, COUGHS AND COLDS, or money back. Sold and guaranteed by Gaetz-Cornett Drug and Book Co.

Dr. de Van's Female Pills are suitable for regular use. These pills are exceedingly powerful in regulating the female system, and curing all cheap imitations. Dr. de Van's are sold at 50c. per box, or three for \$1.50. The Scott's Drug Co., St. Catharines, Ont.

A Nasty Accident

Fire Chief Horace Meeres was the victim of a painful accident last week when he had the misfortune to break his right foot. He was adjusting the fire harness apparatus when the rope broke letting the heavy weight fall onto his foot. Dr. George set the injured member and we are glad to be able to state that Mr. Meeres is doing well.

William Douglas, aged forty, who had just arrived from B.C. and had been engaged as a cook on the A.C.R., was convicted on Friday before Judge Lees for an indecent offence on a boy, and was sentenced to two years in the penitentiary and to receive ten lashes on the eleventh day previous to the expiration of his sentence.

GIVING MR. BORDEN ADVICE.

Mr. Borden has not yet taken office, in fact the Liberal Government will not resign office until today. Still Liberal papers of the Albertan type have had for days the Conservative leader badly mixed in their minds. They have been so accustomed to dictate the policy of their party that they cannot get over the habit, and have been giving Mr. Borden any amount of friendly advice. They do not now believe in the doctrine of "To the victor belongs the spoils," although they have always upheld that doctrine. They cry out for consideration to the party they have always claimed had nothing to say in the running of the country. We do not believe Mr. Borden will be unjust to anybody, and if a civil servant has always kept a civil tongue in his head, and not acted foolishly, he will, we believe, receive every consideration. But the Liberal press, by a continuous harping on the question, makes it very hard for Mr. Borden and his friends to be as just as they otherwise would be, as they cannot help but be more or less influenced by the taunts of the Liberal press.

CAUSE OF LIBERAL DEFEAT.

In their efforts to account for what happened on Thursday, September 21, Liberal papers and speakers are pursuing many trails that lead to nowhere, and missing those that would bring them to some useful knowledge. As the Montreal Gazette points out, the road of their party's ruin is fairly marked. A main cause of the trouble was at the head. Sir Wilfrid Laurier was surrounded by men whose usefulness as leaders or makers of public opinion was done or had never existed. The idea of Sir Frederick Borden, or Mr. Puseley, or Mr. Fisher, or Sir Richard Cartwright, or Mr. Patterson, or Mr. William Lyon Mackenzie King, or Mr. Oliver, or Mr. Templeman, exercising any moral effective influence in shaping the country's ideas or ideals, would make people who followed their course and know them to laugh. What made the situation worse was that they thought they knew everything. Their self-satisfaction was further increased by a press the great majority of whose representatives regarded independence of thought as a heresy, and failed at a kick as if he were a betrayer. So when Mr. Fielding, whose ideas belong to the pre-Confederation era, and who, though clever, is one of the narrowest minded men who ever rose to high position in national life, went to Washington and committed himself to a policy which has been out of date for twenty years or more, there was no body of men, either in or out of Parliament, with vision to see or a voice strong enough to compel the attention of the ministers to the fact that they had misjudged the Canada's needs and her ideals. Some Liberals in Toronto, leaders in commercial and professional life, spoke out and were cursed at as representatives of the "interests," whatever these may be. Mr. German spoke out in Parliament,

and was reviled by those he would have saved. The ministers, isolated from the people by their own choice, surrounded by flattering friends or seekers for favour, thought that what they commended could not be rejected. There were blind leaders of the blind. Before their gross blunder in policy represented by the reciprocity agreement had been made, moreover, the ministers had permitted or committed blunders which made the people lose all faith in their moral as well as their business judgment. The National Transcontinental Railway was to the point in one case, and the Lanctot matter in the other. And the Lanctot matter and the matter in which the Liberal representatives in Parliament approved of a discreditable action, properly encouraged those local leaders of the party in Quebec East, whose misconduct is responsible for the conditions that make the Prime Minister of Canada appear before the world as owing his seat in Parliament to the payment of \$5,000 to a man who had been drunk in order that he might be bribed. And this crime again, decency, perpetrated and exposed at the crisis of the campaign, when the whole country was watching the chief actors, was not condemned by the blind press of the government party; and the decent sentiment of the country was further persuaded that with such a government there could be nothing better to hope for. The end of a party with such a leader, such a policy, such a record, and such unseemly guides, was the ditch of defeat.

A SENSIBLE VIEW.

One of the most ardent supporters of the reciprocity agreement was the Winnipeg Free Press. It shows good sense in bowing to the inevitable, and sets an example to other Liberal papers when it says:

"This is a country where majority rule. The majority may be right or wrong; it may be influenced in reaching its decision by arguments that are not sound or by means that are not admirable; nevertheless, when a clear decision is rendered, sensible people submit to it, philosophically, even though we may disagree with it."

"A straight, clear issue was put up to the Canadian people in the elections settled Sept. 21st. They were asked to say whether they desired reciprocity in natural products with the United States. They have decided by a substantial majority that they do not. Incidental to this decision, the Liberal Government, headed by Sir Wilfrid Laurier, has been defeated. The government has literally been shot to pieces, about half its members having failed of reelection in their constituencies. The verdict is decisive, and is to be accepted without question."

"Liberals should accept the situation with good nature. They have been in power for more than fifteen years—a very long period. The time has come for them to go into opposition, where it will still be possible for them to render the state valuable service. The public has no use for a party which, when beaten, after holding office, sulks in its own and gives itself the airs of a dispossessed heir. The Conservatives made that mistake in 1896, and it had something to do with their long stay in the shades of opposition."

"The reins of power and the responsibilities of office have passed by the judgment of the people to the Conservatives. The issue, being thus settled, for a term of years, Cana-

dians of all parties will extend to R. L. Borden their best wishes that he may be successful in giving Canada a creditable and efficient administration."

THE BOURASSA MYTH.

Now that the election is over we shall hear little more Liberal declaration about the unholy alliance between Mr. Borden and Mr. Bourassa, remarks the News-Advertiser. There was no such alliance. Mr. Borden's views on the navy question are not the same as those expressed by Mr. Bourassa, except that both hold that no comprehensive and permanent scheme should be adopted without the approval of the people. But those who have followed Mr. Bourassa's campaign will have observed that he has paid more attention to government maladministration than to the navy. He has condemned graft. He has demanded an investigation into charges of corruption. Mr. Bourassa has a right to do this in the country, for he did it in the House. His quarrel with the Government was on this issue more than on questions of policy. When he was a supporter of the Government Mr. Bourassa voted with the Opposition on half a dozen motions calling for investigations, or opposing the suppression of evidence, or condemning some corrupt transaction. That was his chief offence. He is still fighting on the same lines, and so far is an ally of all Conservatives.

But Mr. Bourassa is not in Parliament. Some five or six so-called Nationalists are elected. They may or may not work with the Conservatives. In any case Mr. Borden will proceed on the lines he has marked out, and will have a large majority if he has no support from any member even remotely associated with Mr. Bourassa.

WHAT THE VICTORY MEANS.

Perhaps as fair an estimate of the meaning of the great Conservative triumph of last week as can be made is that of the Toronto News, which says:

"The overwhelming defeat of the Government shows that the national spirit is much stronger than the Liberal leaders believed it to be. The attempt to set the East and West against each other and the farmer at odds with the city dweller has signally failed. Canadians recognize that in the National Policy of moderate protection they possess a fiscal system under which the country's material resources are husbanded for their own use, and under which the Dominion has acquired a great series of later-dependent and mutually supporting industries otherwise unattainable. By no means, however, can the victory be accepted as approving such extreme high tariffs as those to which the United States has long been accustomed."

"The judgment is not sectional in any sense. Ontario led the way as the foremost province of Confederation should in a most national crisis, but in all the provinces the Opposition have more than held their own. Manitoba and British Columbia are practically solid against reciprocity, and the Maritime Provinces with Quebec have done well. The Grain Growers' Guide does not represent the West, nor is Eastern Canada enamored of Mr. Fielding's provincial fiscal views. The Liberal press in Toronto misread its constituency and underestimated Canadian intelligence when it tried to inflame the workers against the employers. Neither Toronto nor any other part of the Dominion has been found at all responsive to a most unscrupulous appeal. The mob spirit cannot be roused in this community because it does not exist here."

"The most prosperous and the freest people in the world have emphatically declared their intention to continue on their own way in friendly neighborliness with all other countries but always rejoicing in the British flag, which carries with it the noblest traditions and guarantees the broadest liberty known to mankind. The vote does not mean hostility to the United States, but it does constitute a definite and final declaration against centralism and for the British Empire. The news of the voting has been received with satisfaction in the King's dominions all around the world."

"We have been but are no longer at the parting of the ways. With marked emphasis we have declared for the unification of the Empire and the effect upon the Imperial movement should prove striking. In Great Britain the advocates of Tariff Reform will be tremendously heartened, and before long a stream of Imperial preference will bind all parts of the Empire more closely together. When the next Imperial Conference comes around we shall

send to London a Prime Minister who will not misrepresent the sentiments of this country. Altogether it was a notable victory of which our children to remote generations will be proud."

Attacks President of U.F.A.

The following letter appeared in the Strathcona Plaindealer last week, which speaks for itself:

The Editor Plaindealer:

Dear Sir—In your issue of Sept. 13th, just two days prior to the election, President James Bower of the United Farmers' Association came to the front with an article headed "Reciprocity, the Platform of the United Farmers of Alberta." If it was right as proper that he should at that time, on the part of the United Farmers' Association, rush into print, it was his duty to state what was the whole platform of the United Farmers, not to take a single plank of that platform for party political purposes. Mr. Bower in that article is trying to give the impression that he is not working along party lines, yet gives himself entirely away, for anyone with half an eye can see why that article was printed. I for one am satisfied that that article was printed for the purpose of helping to turn down the Independent Farmer candidates, and to help return Liberal candidates throughout the province. It was entirely uncalled for. If Mr. Bower was not prepared to stand for the whole platform he had no right to go into print from a U.F.A. standpoint. By advocating the farmers' Ottawa platform, he would have been taking no party stand, but by taking one plank and pressing that alone on the farmers, he was, as president of a non-party political association, violating the constitution of the U.F.A. Will Mr. Bower explain why the members of the U.F.A. should accept one plank, selected by the late government, and vote to a man for that plank at the sacrifice of all the other important planks of the farmers' Ottawa platform?

Mr. Bower will have quite a job on hand in explaining his actions in respect to the election just passed. He seems to think he should not be criticised, or even the directorate. No public man should rise to that state, or as soon as he does, he should be called up higher, with the "well done, good and faithful." The farmers had as much right to stand pat for any one of the other planks of the Ottawa platform, as for reciprocity; and it was nothing less than gall on the part of the late government to come to the country on that plank alone, and they have received their reward.

Mr. Bower states that he is charged with having a letter to the editor and mentions that it was not a pleasant duty in answering that charge; we quite think that is true. Mr. Bower will perhaps answer a question on that matter as he has thrown out a challenge to any person. Did not Mr. Bower ask the directorate of the national body of the U.F.A. to recommend him for the position on the Dominion Government Elevator Commission? He can answer it best by having the letter he sent Mr. Freeman on the subject, printed in full and presented to the people through the press.

It is strange that the actions of a few members of the U.F.A., who stand for the Ottawa platform, should be considered, when they have acted independent of the association, and yet the secretary of the association is reported to have left his office, he being a paid official of the U.F.A. and gone right into party politics, helping one of the Liberal candidates in the south. Yet he, to help down the farmers' independent candidates, sent letters and telegrams to other Liberal associations. We shall expect some further explanation from Mr. Bower, also from Mr. Freeman.

There is no sense or reason in the actions of the president or secretary in regard to bringing the matters of the association into politics at this time, in replying to unions that had asked what steps would be taken in respect to putting candidates in the field. The Central body should have done it by letter to the unions, not through the press, for the purpose of helping a party. It will be interesting to see who the commission of Dominion Government Elevators goes to, after Mr. Bower's party actions have been brought to your fair play.

RICE SHEPPARD.
Strathcona, Sept. 25.

Missionaries Are Safe

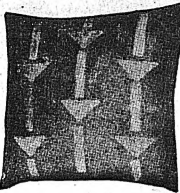

Toronto, Ont., Sept. 21.—Word has been received by the Methodist Mission Board, stating that all missionaries are safe at Chungking, the centre of the Chinese upheaval. The message reads as follows: "Telegram and letter received, Chungking, well and safe. There have been serious disturbances in the country. The following have arrived at Chungking, Dr. Cox, Rev. J. W. Henderson, Rev. R. E. S. Longley, Mr. Mindenhall, Rev. J. W. Sparling, Rev. E. C. Waldron and the Messrs. Siderick, Swann and Smith."

WOOD BLOCK PRINTING.

Charming Effects Gained From This Work.

DESIGN WITH WOOD BLOCK DESIGN.

Curtains, porch and bungalow pillows, portieres, couch covers, table runners, bags of all sorts—in fact, any thing that can be stenciled—can just as successfully be printed by the wood block process.

If one cannot draw a design for a carved wood block it is perfectly possible to adapt one from something at hand. Designs suitable to be traced and then carved on wood blocks can be obtained from wall paper or fabrics with conventional designs.

A little practice will soon teach the worker what to eliminate and what to keep to make a well balanced, harmonious design suitable for this charming craft.

Sailboat Girls Like to Pose.
Woman's place in the sailboat is a problem now agitating amateur sailors. The mariners who take their summer vacation as their only opportunity to sail the tricky catboats have found that most of their accidents have been due to the recklessness of their women passengers. It seems to be at invertebrate feminine longing to pose about the decks after the manner of girls on magazine covers. The woman who sits on the cabin top is the hardest to deal with. Whenever the boom flies the swing of it is likely to knock her into the water. Now it has been discovered that the places for women on catboats is in the cockpit, but this will probably kill sailing as a pastime for women, because it keeps them at most completely hidden.

A Woman's Plan.

Mrs. Ellen H. Richards' proposition for working people to live in hexagonal buildings fifteen stories high and literally surrounded by sunlight and air is not aesthetically, but it is rather terrible from an architectural point of view. But that needn't matter if these "towers" will but solve the congestion of cities and aid in the improvement of sanitary conditions.

Now's the Time to Buy Lingerie Gowns.
This is the season of the year to buy a lingerie gown cheap. The shops are all marking down their best models, and one sometimes can purchase for less than half the original price a frock that in the beginning of the season was prohibitive.

Then if one does not care for ready made clothes there is at present the

IT'S FRENCH, BUT MAY BE EASILY COPIED.
opportunity of obtaining at greatly reduced rates pieces of lace and lovely lengths of insertion and couplings. The lingerie gown illustrated is a French creation; but, as you see, it may be copied at small cost. The materials used are all over elegant embroidery couplings. The skirt consists of two deep pieces of the founcing put together with a wide insertion of val lace. At the bottom of the skirt, under the scalloped edge of the founcing, is a scanty ruffle of the Valenciennes lace. The peasant bodice is formed of eyelet and lace. Outlining the round neck is a piping of black velvet.

Geo. A. Slater's Invictus Boots

ARE WHAT YOU NEED FOR WINTER WEAR.

They'll cost you a little more at the outset than some shoes, but they'll last longer and in the end you'll be glad that you bought them—because you will get a better fit, newer style and very much better and longer.

In Invictus shoes you'll get genuine oak tanned sole leather—a leather that is only used in high grade shoes. The vamps and tops of these shoes are made of the finest selected leather that money and experience can procure—

Every hide that goes into the Invictus shoe factory has to pass inspection of an expert judge of leather.

No trouble and no expense is spared to make Invictus Shoes the best it's possible to produce. We guarantee them to give satisfaction.

Prices \$5, \$5.50, \$6.00.

Pleasing Styles

In Men's Fall Suits

We have the suits to please you, new ones just in, snappy suits of dark worsteds in a suitable weight for winter wear.

You can't help but admire their shape and cut they are correct down to the last button, and the colors are the seasons newest, steel and smoke grey and nut brown.

Prices \$12, \$15, \$18, \$20

Semi-Ready Patterns

Over 400 imported cloths to select from, and every suit made to your order as you want it by the most expert tailors in Canada finished and delivered in fourteen days.

Price \$18.00 to \$35.00

Men's Overcoats

In the Newest and Smartest Styles

More coats and better coats than ever we had before—

Coats of English worsteds, rough tweeds and Scotch Cheviots. Some are finished with a strap, behind most of them have the new reversible collar, three shapes in one, changed to any style in a moment.

You'll like these coats, and you'll buy one if you see them—warm, comfortable and of good wearing cloth, they'll feel pretty good on a cold winter's day.

Prices are right too \$15, \$16.50, \$18.00, \$20.00

Other coats of black broad cloth with velvet collar, in all sizes at only \$12.00

Charming Millinery for

Autum Wear

There's a distinctiveness to the millinery on display on our second floor that is particularly pleasing and attractive. There's a differentness if we can use such a word that is hardly explainable—

It is not in the shapes, for the shapes in similar designs are to be in many towns and cities this fall—no it is not the shapes, nor yet is it the trimmings but the hat itself is different, yes its much different it's in the way it is TRIMMED.

What is true of the artist painter is true of the artist milliner, give an average man a paint and brush and he will produce a daub, give these materials to an artist and he will produce a beautiful picture. Our milliners are artists, a plain shape under their skilled hands becomes a beautiful hat as different from the ordinary kind as daylight is from dark.

Yet the prices asked are no more than for the other kind and in many cases considerably less. May we show them you tomorrow.

LADIES FALL COATS

Of Style and Distinction

Radically different in many respects from last years garments, these coats at once embody the greatest comfort with the newest style. This year many coats are being made of heavy reversible cloth the reverse side being used as a lining and for a contrast on cuffs and lapels.

Other coats of extremely handsome appearance are made of broad cloth in pretty shades of tan and also in black, tastefully trimmed with strappings of self and buttons to match, also the favorite Pony Coats so popular last year and much in favor this season also, we have these from \$23.50 to \$30.00

A Visit just now to our Ready-to-Wear Department will certainly repay you.

Men's Fur Lined Caps

Prices From 90c to \$1.65

And every possible kind to choose from, Heavy rough tweeds and thick dark worsteds, also many styles in the popular corduroy. These caps have the large peaks and high fronts so often called for. Then there are Motor caps in many different styles, some with goggles to protect the eyes and all warmly lined with take down flaps of soft fur. You'll be needing one of these caps during the winter why not get one now and have the extra wear out of it. All sizes and all shapes. Prices 90c to \$1.65

Have You Bought Your New

Fall Suit Yet

If you have not come in and see what we have ready to show you, you'll be delight with the variety of styles and colors to select from prominently to be seen are the new styles in a slightly mannish effect, featuring the large lapels that are now so popular, there are suits of roughish tweed, and handsome models of corduroy, venetian cloth and silk thread suitings. We have chosen these suits very carefully in the worlds best markets and the results are everything we could expect, down to the very last button these garments are absolutely correct and more than that they are exclusive, having that characteristic touch that imparts grace and individuality to the wearer—in the matter of price too we are sure to please you, for we are showing the very newest at from \$15.00 to \$35.00

Do You Need Any Dishes

Then visit our well stocked crockery department. New arrivals have been pouring in and now we are able to show you our unrivalled selection of new and pretty dishes of every description—The new stock pattern especially worthy of notice 98 pieces for \$17.00.

W. E. LORD COMPANY LIMITED

ITALY DECLARES WAR AGAINST TURKEY.

ITALIAN WARSHIPS SINK TRANSPORTS.

London, Sept. 21.—A state of war exists today between Italy and Turkey and hostilities have begun. No sooner had the limit fixed in the ultimatum expired than, ignoring Turkey's conciliatory request for a period of delay, Italy declared war. The Turkish representatives in Italy were handed their passports.

The Turkish commander at Tripoli was asked to surrender the town, but declined, and the Italian forces immediately occupied Tripoli and Benghazi. Apparently the Turks offered no resistance, but this is only an assumption, as immediately on landing the Italians seized the telegraph lines. From the hour of their landing no message of any kind has been received from Tripoli, and despatches sent to that place remain unanswered. Furthermore, a Constantinople despatch announcing the Italian occupation of Tripoli makes no mention of resistance, and says that a mere protest by the governor would be in line with Turkey's announced policy.

The Turkish cabinet which has been for some time insecure, resigned as soon as war was declared, and a new ministry was formed under Said Pasha, but the former able war minister, Mahmoud Shekfat Pasha, was retained.

While Turkey continues her efforts to secure intervention by the powers, Italy is actively pursuing hostilities. An Italian cruiser landed troops at Prevesa after destroying a Turkish torpedo boat destroyer, and the Italian fleet has blockaded the whole Tripolitan coast.

There are unconfirmed reports that Turkey intends to send an ultimatum to Greece to abandon her claims on Crete, and is massing troops on the Thessaly frontier.

The greatest activity ensued in all European chancelleries on receipt of a Constantinople despatch that war had been declared and the notification of a blockade received.

Constantinople, Sept. 22.—Turkey's war minister, according to the reports current here tonight, has received a despatch from the late Turkish military attaché at Paris, who has assumed command of the forces at Tripoli, stating that the Italians began to disembark this afternoon, but the Turks succeeded in sinking the first two barges.

It is rumored also that Italian forces have landed both at Tripoli and Benghazi.

The Turkish cabinet has resigned, Said Pasha assuming the office of Grand Vicer, and Kiamil Pasha that of foreign minister. Mahmoud Shekfat Pasha continues as minister of war.

The Italian charge, Signor Dimerino, handed the Porte this afternoon a communication intimating the intention of Italy to proceed with the measures outlined in the ultimatum. This was tantamount to a declaration of war, and as a state of war would give Italy greater freedom of action in vessels steaming in the direction of the Dardanelles.

The British embassy here is concerned for the British offices with the Turkish squadron, and is instructing their government for their recall. The question of the protection of Italian subjects in Turkey is engaging the attention of the Italian authorities. It is thought that a request will be made to Germany to undertake the protection of the Italian ex-convicts. The national emblem has been removed from the embassy, the consulate, the post office and the schools with a view to preventing outbreaks.

The newspapers published the statement that Italian battleships have appeared off Smyrna and Salonika. Following is the text of the declaration which the Italian charge handed to the Porte:

"The Italian embassy, carrying on the orders of the king, has the honor to notify you that the delay accorded by the royal government to the Porte with a view to the realization of certain necessary measures has expired without a satisfactory reply reaching the Italian government. The lack of this reply only confirms the bad will, or want of power, of which the Turkish government and authorities have given such frequent proof, and especially with regard to the reports and interests of Italy in Tripoli and Cyrena.

"The royal government consequently is obliged to safeguard its rights as well as its honor and dignity, by all means at its disposal, even this which follow can only be regarded as the necessary consequences of conduct followed so long by the Turkish authorities.

"The relations of peace and friendship being therefore interrupted between the two countries, Italy considers herself from this moment in a state of war with Turkey. I have therefore the honor to make known to your highness that passports will be placed at the disposal of the charge d'affaires at Rome, and I beg

your highness to hand passports to the representative of the royal government.

THE KIND OF FURNITURE TO BUY

The other day, a customer of ours told us that some Furniture she had bought of us over a year ago, sold recently, at an auction sale here, for more money than she had originally paid for it. That's pretty good after having a year's use of it.

That's the kind we keep—The goods that look well, the kind that wears well, and the kind that sells well.

Whenever you are in need of anything in the House Furnishings, give us a trial order. Our prices and goods are right.

TOWN COUNCIL

The regular meeting of the Town Council was held on Thursday evening last, with His Worship Mayor R. B. Welliver in the chair, and Councilors Gaetz, Carscaddon, Malcolm and Galbraith present.

CORRESPONDENCE.

Olds asked for information relative to moving picture show. A. W. G. Allen, Town Auditor, reported having audited accounts for past month and found same correct. G. H. Darling, Alis, asked for information re electric lighting contract. Mr. Drugman, Financial Post, wrote re debentures.

COMMISSIONERS' REPORT.

The Commissioners brought in the following report: We recommend that we be authorized to call for tenders for the debentures we have on hand after they have been certified correct by J. B. Clarke, K.C.

We have discussed the question of a site for stand pipe with J. J. Gaetz, Engineer, Miles and submit reports and offers. We recommend that the last offer of Mr. Gaetz to sell us 110 feet x 75 feet for \$250.00 be accepted. During our negotiations Mr. Gaetz has acted in a very reasonable manner and has shown a desire to meet our wishes as far as possible. We consider the price asked very low. It seems desirable for the town to secure a site for a stand pipe while there is a chance to obtain a site. Some time in the future it will be necessary to consider the question of building a stand pipe, and in laying the main line Douglas St., we provided for the supply pipe. We have received a blue print showing the route of the C.N.R. through Town. It is now on file at the City Engineer's Office. We received a letter from the Co. asking for the closing of an additional street. The letter and reply thereto are submitted herewith.

The installation of the duplicate watermain from the power house to Gaetz Ave. has been completed in a satisfactory manner. This will enable us to repair any broken main or pump without a shut down of the water.

Mr. Iverson, Supt. of Parks, Calgary, spent several days in town last week and his assistant was here yesterday. He will make a preliminary report shortly. We are pleased to report that the Canadian Pacific Railway Co. have engaged Mr. Iverson to prepare a plan for the building and location of their station grounds, and that they will likely carry out the plan next summer.

We requested the Town Solicitors to prepare a by-law authorizing the dedication to the Militia Dept. of a site for an armory. Mr. Greene informed us that the Town has no power to grant a site free for this purpose. Therefore the by-law was not prepared. We recommended that we be authorized to take up the land they already have in town, and which is not being used for any purpose. We submit report from the Medical Health Officer.

We recommend that Chas. Anderson be appointed sub-chief of the police force at \$75.00 a month.

We believe the time has come to consider the revision of the fire limits. We recommended that a committee of the Council be appointed to work with the Commissioners in this matter. The excavation for the septic tank is nearly completed. We will soon move the concrete work immediately. Some of the steel water pipe has arrived. We will commence to lay some water mains next week like by, and will also build the remaining plank walks laid out for this year's work.

We submit herewith accounts for your authorization to pay.

All of which is submitted.

The C.N.R. people, in their letter, asked that the street south of the septic tank be closed with other streets, although it was not mentioned in agreement.

The Commissioners replied to the company that it was never at any time considered to close said street, as the Town would, if this street were closed, have no access to the septic tank.

Councillors Carscaddon and Malcolm were appointed a committee to act with the Commissioners in revising the fire limits.

MEDICAL HEALTH OFFICER'S REPORT.

Dr. J. Collison, Medical Health Officer, sent in the following report to the Council: To the Commissioners and Council.

There have been a number of cases of sickness in children. This sickness is of an obscure nature, but one case at St. Joseph's convent I consider a case of infantile paralysis, and communicated with the Provincial Health Department. Dr. Norman came down and he agreed that it looked very suspicious. I also showed him several other cases in which the diagnosis was not so clear. Practically all of the suspicious cases have been confined to south part of town. I would advise that all small children, and more especially those in poor health from any cause, be kept strictly to themselves and separated from other likely susceptible children.

I also took the opportunity of showing the Provincial Officer over the old creek bottom where manure has been dumped. The Dr. expressed a great surprise at such a thing being done, and will probably take the matter further when he reaches Edmonton.

J. COLLISON.

The Commissioners will further discuss this important question with the Provincial Medical Health Board and Dr. Collison, and take all precautions possible to prevent any further cases of the disease.

ACCOUNTS.

The following accounts were presented and passed: R. Gusaphson, \$18.42; J. M. Turner, \$30.75; Merchants Bank, \$200.00; Red Deer Citizens' Bank, \$180.00; Canadian Fairbanks Co., \$39.21; Crown Construction Co., \$74.24; J. Macdonald, \$87.77; Canadian Securities Co., \$40.25; W. Henshaw, \$11.77; Canadian Pacific Railway, \$204.57; Wage Sheet No. 2, \$21.55; Plantation Bridge & Iron Works, \$151.15; News Publishing Co., \$120.00.

BY-LAWS PASSED.

The Exhibition Association grounds and Park By-laws were read a third time and finally passed.

G. W. Greene, on behalf of the Board of Trade, addressed the Council on railway matters. He said it would be of great advantage to have the Council and Board of Trade work in conjunction with North Red Deer in urging upon the Canadian Northern Railway people the advisability of running a spur from their line north of the river through North Red Deer to connect with the C. & N. line somewhere near the lumber yard. This should be of great value to the town and might be largely utilized in the future for warehouse purposes. The railway matter will be pushed this fall and we will soon be coupled up with Lacombe.

He urged that early action be taken in the matter. Moved by Councillor Gaetz, seconded by Councillor Galbraith, that the Council of the Town of Red Deer, in cooperation with the Council of North Red Deer and the Red Deer Board of Trade, endorse the proposition to ask the Canadian Northern Railway to construct a line of railway from its proposed Strathcona-Calgary line, on the north side of the Red Deer river, west to connect with the Calgary and Edmonton railway, and that the Commissioners be authorized to forward the proposal to have this tender track constructed at an early date. Carried. Council adjourned at 9:45 p.m.

Dry Farming Congress

Colorado Springs, Colo., Oct. 1.—The Sixth International Dry-Farming Congress will hold its sessions in this city during the five days from October 10 to 20, inclusive.

Behind this simple statement lurks what is probably the greatest single agricultural force the world has ever known.

The International Dry-Farming Congress is an organization with working branches in nine continents of the world, with more than 15,000 individual members scattered through fifty nations, and with an expense for agricultural propaganda, including funds expended by its branches, of more than \$60,000 annually.

The Sixth Congress will have as delegates in actual attendance seventy-five representatives of the world's agricultural colleges, fifty professors of similar institutions, fifty members of the staff of the United States Department of agriculture, a half hundred agricultural authorities from foreign countries, and more than 2,500 prominent farmers and business men, all of them intensely interested in the great problem of reclaiming the so-called arid districts of the world. These delegates actually own and operate farms to the extent of nearly six millions of acres, and the problems they will meet to consider are vital to sixty-three per cent. of the American continent and to more than fifty per cent. of the entire earth's surface.

Five previous conventions have been held, the first at Denver, Colorado, in 1907, with an attendance of 300 people, and the last at Spokane, Washington, with more than 2,000 registered delegates and an actual attendance of double that number.

The Congress is a unique organization. Its avowed objects are the operative, scientific study of agriculture and the development of better farming methods in the sub-humid world. It has no country to colonize. It has no lands to sell. Its work is utterly impersonal, and, as such, it has been officially endorsed by the agricultural authorities of many countries.

The world has discovered, as a general truth, that the method used in farming in these regions which receive 20 inches of rainfall or less per year makes all the difference between success and failure. The actual fact is just beginning to learn this fact.

A few years ago the agricultural world was astounded at the news that a campaign for better farming methods in Iowa had succeeded in raising the annual yield of corn in that state five bushels per acre. The campaign now being carried on in the dry-farming districts frequently determines whether two bushels or twenty bushels of wheat to the acre, and other crops in proportion, shall be harvested.

The Congress advocates deep plowing for the production of humus in the soil, frequent surface cultivation and the maintenance of a loose surface mulch to check evaporation and preserve moisture, the rotation of crops to preserve soil fertility, the raising of live stock to the limit of the farm's capacity, and the use of plenty of common sense on the part of the farmer as a lubricant for his season's labors.

The gradual adoption of these principles by the country's "dry-farmers" has added hundreds of millions of dollars to the value of the lands of western America, but it is adding other tens of millions annually to the crop production of every western state. For instance, Colorado's agricultural products this year amount to more than \$104,000,000, or \$130 per capita. Never before in the history of the country has the average per capita production of crops been more than \$100. Five years ago Colorado's total annual crop value was less than \$40,000,000, and the subsequent increase is largely due to the rapid development of her dry-farming district under scientific farm methods.

life farm methods.

The Dry-Farming Congress has grown so rapidly that its division into sections became a necessity several years ago. This year no less than five great convention halls have been secured to accommodate the various divisions. In addition to the various congresses there are now the International Congress of Farm Women, the International Conference of Agricultural Colleges and Experiment Stations, the Colorado Division of the American Breeders' Association and the Great Plains Co-Operative Experimental Association, the last named being composed entirely of experimental and field men connected with the United States Department of Agriculture. Special sessions of each division will be held through the five days of the congress. There will also be institute or practical farm work sessions covering from two to five hours daily.

The international exposition of dry farming products will occupy a building 800 feet in length, and there will be extensive exhibits from almost every state west of the Missouri river, from several Canadian provinces, and from a half dozen foreign countries. The monetary exhibit will occupy an additional space 140 x 940 feet in size.

The International Congress of Farm Women, mentioned above, has yet to hold its first session. Authorized by the Dry-Farming Congress this summer for the betterment of the farm home, the official call has met with such a prompt response from every section of America and from many foreign countries that it now promises to be one of the most successful features of the great gathering. Already there has been organized a branch Women's Congress in Pretoria, South Africa, with Viscountess Gladstone at the head, and other branches are in immediate prospect. The plans for the Women's Congress include frank discussions of proper equipment for the farm house, laws of physical life in relation to the family, the cash value of rest, labor saving devices, the economic value of the farm woman, the country church and the country school; together with demonstrations in cooking, home hygiene, emergency nursing and the care of infants and young children. men and women of international reputation are on the programme, which is being prepared by Mrs. John T. Thurman, the secretary of the new organization, assisted by a working committee of prominent Colorado women. A special section will be devoted to the women writers on farm newspapers, whose influence is the greatest single factor in the life of the American farmwoman.

The Dry-Farming Congress has as its head this year Dr. J. H. Worst, president of the North Dakota Agricultural college. Its active officer is Secretary-Treasurer John T. Burns, of Colorado Springs. Several cities are asking for the honor of the 1912 convention, including Canada, Salt Lake, Utah, and Prescott, Arizona, are the candidates.

Abductor is Remanded

Kidnapper of Gladys Price Comes Up for Trial Oct. 2.

Morden, Man., Sept. 25.—The preliminary hearing of the case of George Brown, the prisoner held here in connection with the abduction of Miss Gladys Price, the Riverdale school teacher, and of the attempted murder of William Adams, the proprietor of the Western hotel at Snowflake, has been postponed for another week.

The prisoner appeared before Magistrate Lake at three o'clock this afternoon. After the charge had been read, Melford Watson, of the law office of Crown Prosecutor, acting for the prosecution, asked that the hearing be postponed for one week on account of advice which had been received from the Attorney General's department and of the absence of Crown Prosecutor Bowen. Police Magistrate Lake granted the request and directed that the preliminary hearing of the case take place on Monday, October 2, at three o'clock in the afternoon.

At that time the prisoner's correct name is George Brown, there can be no doubt, as he has not only been charged under that title but those who have known him for some time confirm the name to be correct.

The prisoner has not fully recovered from the effects of the poison which he administered to himself last Tuesday and while in the court room carried himself and acted in the same unbecoming way which he has hitherto shown since his arrest. One extra guard is now on duty at the courthouse and it is hardly likely that the prisoner will be successful in any further attempt which he might make to evade the law taking his course.

The Children's Hair

A Little Extra Care Now May Save After Years of Regret

Children play no hard that the head perspires and the hair has a tendency to fall out. The scalp is very sensitive and water doesn't seem to remove the dirt. The hair is very brittle and it is the duty of the parent to keep the hair of their children like to the scalp. The hair is very brittle and it is the duty of the parent to keep the hair of their children like to the scalp. The hair is very brittle and it is the duty of the parent to keep the hair of their children like to the scalp.

Sold and guaranteed by The Gaetz-Cornett Drug & Book Co., Ltd., and Gordon B. Parker, Red Deer.

"TRADE WHERE THE TRADING'S GOOD"

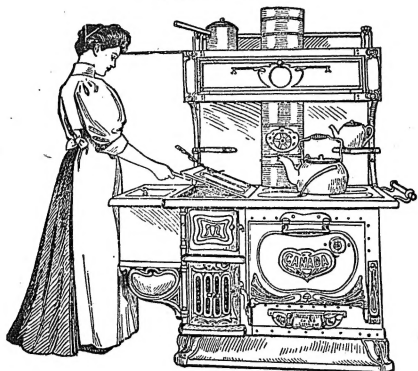

NEW STOVES

We don't want to use many adjectives in our stove talk--anyone can do this--suffice it to say that for every one sold last year we have sold nearly four this year - "There's a reason"

Any MAIL ORDERS entrusted to us will have our prompt attention, and FREIGHT will be PREPAID to any point on the C. & E. Line, or the Lacombe-Castor Branch

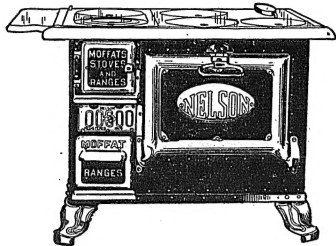

RANGES

Four hundred per cent. seems a big increase in one year, but this is actually what we have done, and here are the lines we have done it with:

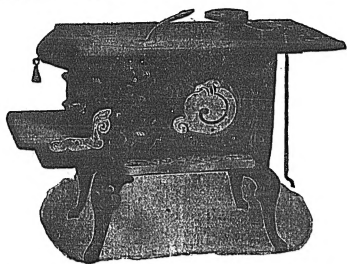

For beauty, strength and simplicity we challenge comparison. Leading Stove experts pronounce the CANADA B the best "throughout" steel range in America.

CANADA B, full nickled, high closet and reservoir	9-20	\$70.00
Same as above	9-18	63.00
NELSON B, full nickled, high closet, copper reservoir	9-20	55.00
Same as above, but perfectly plain	9-20	52.50
NELSON B, full nickled, high closet, copper reservoir	9-18	45.00
HUDSON, plain, high closet and galvanized reservoir	9-16	40.00

NELSON, plain and square	9-20	\$35.00
NELSON, plain and square	9-18	22.50
NELSON, plain and square	9-14	17.00

THE CASTEL COOK shown above is a medium priced cast top Stove, with a steel body, steel oven and cast iron outside dress. Has a large pouch feed for soft coal, while the revolving duplex grate will permit of burning wood or coal of any kind. Aluminized inside, anti-rust, and cannot be destroyed with heat.

Plain (without reservoir)	\$25.00
Extended (with reservoir)	31.00

THE JOY WOOD COOK

Is a large No. 9 Cook Stove that we secured from Quebec. It has a large oven and is substantially built, and is the best stove for the money we have ever seen. We have tried everywhere in Canada for a good low priced stove, and this represents the result of our search.

Price only \$14.05

HEATERS

STRATHCONA HOT BLASTS

This stove is one we have handled with the most satisfactory results for the past eight years. The body is made of heavy Russian iron, ornamental dome top, lap jointed to body. Nickle plated swing cover, ring, rail base trimmings, etc. Hot blast draft, which is the draft of the stove, and burns all the gas in the coal. This draft, in connection with the absolute airtight construction, discharges a blast of fresh air over the surface of the coal, saves waste and gives a steady controllable heat. Feed door is absolutely smoke proof. Above fire pot inside is a steel lining which prevents action of fire on the body. Extra large ash pan. Grate can be shaken without opening ash pit door. Clean out draft door lifts up, and is held by patent malleable attachment.

No.	115	118	1118
Price	\$16.00	20.00	23.00

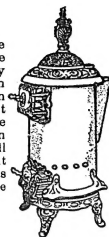

THE RIVERSIDE OAK

Is perhaps the only stove that comes into Alberta in straight carloads. We do not think there is a better stove made for school houses, churches or public buildings, and burns either wood or coal, but is much better adapted for the latter, and will burn the ordinary lignite such as we have here as well as the best hard coal. It is on an improved principle of direct draft heaters, and combines an easily applied system of ventilating and heating. The ventiduct flue removes the cold air from the floor, passes it through the fire chamber, intensely heating and purifying it, after which it is distributed through open swing cover into the room. The fire pot is unusually heavy and durable. The body is made of heavy polished cold rolled steel. It is ornamental in appearance and will thoroughly satisfy purchaser in volume of heat produced.

No.	23	24	514
Price	\$29.00	32.00	33.00

THE ALBERTA

The Duplex Grates and Annular Shaking Ring. These can be taken out in pieces without removing the fire pot. The Fire Pots also have been made nearly straight, giving larger capacity and less trouble from holding up the clinkers and ash. The Feed Door in the Alberta is just the right size, and in the right place. The swing top is provided with a cover for the kettle. No smoke will go through the room when putting the coal in the new top feed door. This will also allow you to poke the coal in the fire pot without burning your fingers. The hot blast draft enters through this feed door and allows the hot air to be spread over the top of the fire, burning the gases.

No.	116	118	120
Price	\$22.00	25.00	28.00

THE FAIRY OAK

Herewith illustrated, are always very popular and are big heaters at a moderate price.

The bodies are made of one piece heavy superior cold rolled steel and flanged top and bottom. In mounting, the body is forced over a flange on top of fire pot into cement filled cup joint. Body flange is then turned, and over this deflector ring is bolted, making an absolutely airtight joint, which cannot open or leak.

No.	13	15	17	19
Price	\$12.50	15.00	18.50	22.00

DERBY OAK

Very similar to the Fairy Oak but the castings are lighter, and it is not so well nickled. For a medium priced stove we are sure it will be a great favorite.

Nos.	11	13	15	17
Price	\$7.00	9.00	11.50	14.50

TOGO AIRTIGHT

This has been a great seller in the district west of Red Deer, and is especially adapted for burning wood. They are made of Russia iron bodies, anti-rust coated, cast iron main top, swinging top feed opening. Nickle plated rail around bottom, heavy corrugated steel linings, double seamed steel bottoms.

No.	21	26
Price	13.50	17.00

AIRTIGHTS

Sheet top made of smooth iron, lined above fire belt, cast iron draft register. All well constructed and thoroughly dependable.

No.	118	121	122
Price	\$2.50	3.25	4.00

BOX STOVES

Perhaps as good a stove as you can have where wood is plentiful and cheap. The number of the stove indicates the length of stick that can be used.

18	22	25	28	31	36
\$5.50	7.00	8.50	10.00	11.00	15.50

JUMBO HEATERS

Are a very strongly made cast stove with great heating capacity. They are perfectly plain in appearance, and represent the maximum heating ability at the minimum expense, and are only suitable for burning coal.

No.	30	40	60
Price	\$7.00	8.00	9.00

The pupils of the St. Joseph's Convent are preparing nice numbers for the R. C. Concert of the 17th.

Miss Hattie Hill, daughter of E. R. Hill, left on Monday for Brandon, where she will attend a course at the Brandon College.

Dr. Parsons, who has been ill with typhoid fever, is improving nicely. Dr. McKenzie has had charge of his practise during his illness.

The Oddfellows of Innisfail are giving a grand ball on Friday evening. Quite a crowd of young people intend going from Red Deer.

Father Voisin is getting for the R. C. Concert the Indian Orchestra Band from the Hobbema Reserve. It is a new feature. Do not miss it.

Don't forget the sale of work and household cooking to be held in the basement of the Baptist Church on Thursday afternoon, beginning at 3 o'clock. Dainty refreshments will be served at very moderate prices.

The Royal Theatre, which opened on Monday evening, has been drawing packed houses, and the management are to be congratulated on the excellence of their programmes and the neat and comfortable appearance of their theatre.

Mr. George Crammond, of the Mail & Empire, Toronto, has left for his home after spending a week at Springvale with his sister-in-law, Mrs. John H. Bennett. He also visited some of our most important towns in a general tour of the west.

J. C. Miller, President of the Canadian Club and President of the Board of Trade in Orillia, Ont., will be in Alberta to take part in the campaign of the Alberta Temperance and Moral Reform League. His lecture will be in Red Deer, Sunday, Oct. 15, to deliver two addresses.

Edwin Gray, of Hillsdown, one of our most highly respected old timers, left for the coast on Thursday evening last to join his wife, who has been in B.C. for the past month. Mr. Gray's sale on the 20th was a pronounced success, and he was well satisfied with A. Rogers price auctioneer, good prices being realized for everything sold. Mr. Gray will reside at Okanagan Mission, B.C.

To raise a little money with which to carry on their work throughout the winter, and so be in better shape than ever in the spring, the Citizens' Band have signed contracts with J. Cogrove for the appearance of three shows within the next few weeks. The first, which is the famous Juvenile Bostonians, will be here early in November, and the executive of the band are now soliciting subscribers for the three shows and are offering special inducements to all, so as to get full houses. The other two are the Castle Square Company and the world famous Dixie Jubilee Singers. That all of these attractions are handled exclusively by the well known theatre manager, J. Cogrove, should be sufficient guarantee of their excellence; and the band hope you will show your appreciation of their efforts for the summer by subscribing for the series of three, and thus help along a worthy cause. Regarding the Dixie Jubilee Singers, they are the best organization of that kind, and must not be confused with any similar organization, and to miss this would be to miss one of the best musical treats of the season.

Read Best Bros.' ad on this page.

I. Lyons, of the freight staff, spent the week end at Innisfail, renewing acquaintances.

C. H. Chapman went east last week and is expected back by about the 15th of Oct.

Miss Pearl Millar was the guest of her sister Miss Millar, of the High School staff, on Monday last.

Miss Norma Day, who has been spending a holiday out at the home ranch, is again back in town.

H. M. Morgan, of Calgary, arrived last week to take the position of night car checker at the C.P.R.

Miss Bilton, the commercial operator at the station, is leaving to take a similar position at Wetaskiwin.

Best Bros. are today unloading a car of new furniture. This firm has some nice things to show in new designs.

Father Voisin is getting for the R. C. Concert the Indian Orchestra Band from the Hobbema Reserve. It is a new feature. Do not miss it.

Rev. O. Creighton, son of the late Bishop Creighton, of London, England, conducted service at St. Luke's church Sunday last and preached two very interesting discourses. He was the guest of Mrs. Carswell while in town.

Mr. and Mrs. Beckett, Sr., left for British Columbia on Monday, where they will spend the winter with Mrs. Rondo. The aged couple have been in Alberta over twenty years without a change, and it is now coming to them. We hope they have a good time.

L. H. Cole, of the Department of Mines and Minerals, Ottawa, and a cousin of Miss Millar, of our teaching staff, has been in this district recently investigating the quality of the alkali waters throughout the country and their relation to the different salts contained therein.

Some of the furnishings for the Young Men's Club have arrived, and the rooms are now being put in readiness for the opening, which will take place next Monday evening. The opening will be in the form of a social, to which everyone is cordially invited. Music by the orchestra, solos, club swinging, speeches, etc., followed by refreshments, will be the programme, and it is hoped everyone interested will turn on.

A meeting was held on Monday evening in the basement of the Methodist church and a mock parliament was formed in connection with the Young Men's Club. The chair was taken by Harry Wallace, and W. L. Smith was secretary of the meeting. After a lot of discussion had taken place, and several nominations being made, W. T. Cote was selected for Prime Minister with E. G. Johns as leader of His Majesty's Loyal Opposition. Parliament will sit every 1st and 3rd Tuesday of the month, and the speech from the throne will take place at the first meeting, Oct. 17th. Jas. Youmans will be Governor-General, and will announce the date of the Governor-General's hall later.

The Royal Welsh Ladies' Choir gave an excellent concert last night to a crowded house, and all who had the pleasure of hearing them were unanimous in saying that it was the best event ever offered in Red Deer. It would be hard to make special mention of any member, as all of the items were rendered in so masterly a style as to leave nothing to be desired, and the vast audience appreciated thoroughly the music given by the ladies from Cambria. After the concert, the ladies were entertained by the members of the Methodist choir (under whose auspices they were here) in the basement of the church, when refreshments were served, and a pleasant hour was spent, and the Royal Welsh Ladies' Choir will long remember their visit to Red Deer, and will be only too glad to return at some future date.

Another enterprise is added to Red Deer's growing business houses this week in the form of a business college. This college will be under the direct management of Professor D. W. Henry and his wife, who have had long experience in one of the best business colleges of the east. Already some six or seven pupils have signified their intention of attending, and there is every prospect of there being a large class ready for work by the time the institution opens on Monday next, the 8th inst. Rooms have been secured upstairs in the post office block, central and convenient. Red Deer should be able to maintain a business college of this kind, and we hope the citizens of the town will give it every encouragement, as Mr. and Mrs. Henry come fully recommended and qualified to take charge of such an institution.

FOR SALE—An electric vacuum Cleaner. Apply ROBERT GEE, Box 532. Oct. 4, 11.
